GREAT SENSATION AT GUTHRIE.

Two Prominent Citizens of the Town Charged With the Murder of Frank Rodgers.

Guthrie, O. T., April 27.—(Special.)

Not for many a day has Guthrie enjoyed such a sensation as this morning when two of her prominent citizens were sent to jail on the charge of murder.

When the body of Frank Rodgers, a young Englishman, was taken from the Cottonwood river last September and a coroner's jury failed to learn the cause of death, it seemed that the matter was destined to remain a mystery. Two months ago a Pinkerton detective was sent here by the British government, and as the result of his work Frank Thorpe, a colored porter, and William Knowles, ex-night policeman, were arrested on the day as an accessories to the murder. The detective followed up his clues, and after securing a confession from a notorious woman of the place went with the sheriff to the residences of W. H. Thorne and O. C. Sossy, early this morning and lodged them in jail charged with the murder of Rodgers. Thorpe is president and general manager of the Guarantee Investment and Loan Company and Sossy is a prominent real estate and insurance broker.

There are other persons under suspicion and more arrests will follow. The theory of the case now is that he was chloroformed at Mrs. Jackson's home, on South Second street, where Thorpe was porter, and afterward thrown in the river. The parties will be given a hearing Monday and some startling developments are promised.

The Rodgers case was placed in the hands of Vice Consul Philip E. Burrough, of this city, immediately on the discovery of the murdered man on the river. Burrough said last night that Rodgers was killed on October 2, and that when found his body was yet warm. John A. Rodgers, an Englishman living in Guthrie, telegraphed and subsequently wrote Vice Consul Burrough an account of the murder. Mr. Burrough began an investigation, but presently turned the matter over to O. Hayward, the British vice consul at Galveston, Tex., as he was about to make a trip in Oklahoma and intended visiting Guthrie. A detective was placed on the case, and he spent two months at it. The result of this detective's work is the arrest of the W. H. Thorne mentioned in the dispatch. Mr. Burrough said last night that Thorne is Rodgers' uncle. Rodgers was 28 years of age and had been in Oklahoma but two months. He came from Buckingham, England, directly to Oklahoma, and had in his possession \$7,000 in cash. He had secured some valuable land in the territory and proposed settling there and engaging in farming. The supposition is that he was murdered for his money by the two colored men. Some change and his watch were found on his body, but there is no trace of the \$7,000. Rodgers was to have married an English lady in three months time after his arrival in Oklahoma. She was to have gone to the territory from Hutchinson, her home. Thorpe, as Rodgers was an English subject, as Rodgers was in the new United States court to be established at Oklahoma City. The case will be one of the first to come up before Federal Judge William M. Springer.

THE BEAUTIFUL THISTLE

Wonderful Lightness! Marvelous Strength! Exclusive Beauty! As Light as Silk! The Very Highest of High Grade! The Lightest Road Wheel in the World!

Four years ago the Thistle was led all other wheels in lightness and durability has been its glory.

Don't imagine that it is too light to be strong. A careful examination will convince any candid investigator that it is stronger than any bicycle that weighs within four pounds of it. Actual scale weights are as follows:

Men's Roadster, 20 pounds.

Ladies' Diamond Roadster, 18 pounds.

Ladies' Drop Frame Roadster, 20 pounds.

Children's Roadster, 10 pounds.

We have the scales and will weigh them for you at any time. Don't be fooled by weights. The Thistle is the only road wheel that actually weighs under 20 pounds. Ask any dealer who claims to have a road wheel as light even as 20 pounds to put it up to the scales.

We furnish the Thistle in any height of frame, in any color of enamel, in any tire, in any saddle or handle bar design—in fact, build a wheel to order for you, all without extra charge. Ask us to put up the price on the Thistle 500 bikes. If you want the very latest wheel, ask us to build a wheel for you. We are willing to pay 50c price for the Thistle is the wheel for 20c.

We are having a wonderful trade on the PROGRESSIVE TOPPER GOLD CRANK FOLDING. Six hundred copies, all beautiful. No better. Cheaper. Where all know, why from 80c up.

If you want a medium priced wheel we can suit you better than any other dealer in this part of the country. Don't give up your dollars—ask you call and see our stock.

We are headquarters for Bicycle Supplies of every description, to the cycle repairer of all kinds, and have a Free Riding School for all who buy wheels.

Send stamps for catalogues.
